"Do or do not...there is no try"

I cannot believe that the Class of 2014 are seniors and graduating. It has been a long journey but we have finally made it. We are about to start the rest of our lives and I would like to extend my best wishes to my fellow graduates in whatever path they choose to walk in life. I am beyond grateful for the education I have received in Norwell and for the people who made it such a fulfilling experience. First off, thank you to all of the teachers who made a difference in my academic career, with specific thanks to Mrs. Uhlman. I would also like to thank Mrs. Greene, Mr. Kitchen and Mr. Lacy for their support and encouragement over the past few years. Finally, I have to thank my mom. I have absolutely no idea where I would be without her love. She is my best friend and partner in crime. I am going to miss her like crazy in college, but I know that she raised me to stand strong on my own two feet. Once again, congrats to all of my friends and classmates!

First, I would like to thank my family for all of their support through the many stressful moments of Kim's life that made my life more stressful. So thank you! I would also like to thank my friends for all the great times that we had together. Finally, thank you to all my teammates who've made the years so memorable. Thank you.

I would first like to thank my family for always being there for me. Looking back, I realize how many times they were by my side to guide me in the right direction and to offer support or help. I do not know how they put up with my constant complaining or stress over the years, but they did and I will be forever thankful for that. I would also like to thank my friends. I don't know how I would have made it this far without them! From the more simple elementary days, to the increasingly independent middle school years, and finally to the ever-stressful and the ever-fun high school years, we have stuck together through it all! I am going to miss you all so much! My friends and my family have both been my biggest cheerleaders. It was always so nice to know that I had such great people surrounding me and believing in me. My fondest memories are all those hours that I have spent with them and my family. Finally, I would like to thank any of my teammates or fellow club members that I have met over the years. I feel incredibly grateful and proud to call you my teammates or club! You all have helped me achieve goals and have helped me learn. Thank you all so much (again) and congratulations Class of 2014!!

I would like to start by thanking everyone who has been part of my life the past four years. Mrs. Kaupp I cannot thank you enough for all the help you have given me the past three years; you truly are the best. Loz, what can I say love you girl. Laur, I love you to the moon and back. Thank you for always making me smile and having my back; I don't know what I would do without you. Mom and Dad, you are my heros, thank you for always being by my side and supporting me through thick and thin. Rebecca, Bizzy and Spencer words cannot begin to describe how much I love you guys, no matter where life takes us I know you'll always be there. To everyone else, good luck. It's been real.

As my time here at NHS comes to end, I would like to give a special thanks to my parents and my brother Matt for always supporting me throughout my high school career. I also would like to thank all of my friends, especially Val, Chris, and Kali. Although they no longer attend NHS they continue to be a gigantic part of my life and each hold a special place in my heart. I would like to give a shout-out to kbilz for being my crazy wing girl and also to wish her the very best of luck with her senior year with the class of 2015. I would like to give a huge thank you to Lily- we've gone through some rough times, but at the end of the day we've been together since we were 7 years old and I know I can always count on you. Next, I would like to give a big shout-out to my homeroom group, Sarah, Sabrina, Jack, and Lindsey for making every morning a little more bearable. Sar, we've been friends since Bergie-Berg Fresh in 7th grade and I couldn't ask for a better best friend. Finally, I would like to say congrats to everyone in the class of 2014 and best of luck in the future.

There are so many people who I have to thank for constantly supporting me in high school. Mom: Homie, you're my best friend and I hope to be as successful and beautiful as you are someday. Dad, you have always been B's #1 fan. My relationship with you has been the most impactful on who I am as a person today, and I will always be grateful for that. Marani, you know that you've been a second father to me ever since I joined your AAU team. Thank you so much for everything you, Dito, Coach Connor, and Ms. Field have done for me in every aspect of my life. To my #SOTW, guys, we lived it up in high school, (usually in my basement) and I couldn't have asked for a better group of friends. Richard, Boris, Mikay, Homie Grace, Lil, Gretch, Madison, Meggy, Sabrina, and Katie: the inbox will live on and the bucket list will be completed one day, no matter what. LADY CLIPZ, you guys are family to me, and I know that you will continue to be the amazing group of people that you are forever...I will never forget my time with you guys. Last but not least, a big thank you to my best friends Davey and Kate. You two are the most important people in the entire world to me...always remember: "If ever there is tomorrow when we're not together...there is something you must always remember. You are braver than you believe, stronger than you seem, and smarter than you think. But the most important thing is, even if we're apart... I'll always be with you"-Winnie the Pooh

First of all, I want to thank all my teachers at NHS. Without late nights and your willingness to help I never would have made it through high school. To my parents, I am so grateful for all the love and support you have given to me over the years. I wouldn't be the person I am today without the guidance and lessons you have given me. Ally, you're my best friend and the best sister I could have ever asked for. I'll miss you desperately next year but remember to study hard and keep your grades up while having tons of fun along the way. High school is what you make it so start your freshman year with an open mind and don't be afraid to try new things. To my friends, I'm going to miss all of you so much next year and I wouldn't trade our memories for the world. These four years wouldn't have been the same without you guys. Even though you're younger than me, you have taught me so much and have wisdom beyond your years that I know will take you far in life. Claudia- thank you for being my rock through it all and putting up with my craziness. You are like a second sister to me and I don't know what I'd do without you. We did it Class of 2014!! For years you think all you want to do is get to graduation, but once you get there it's almost like you never thought it would actually happen. Mom- Sorry I'm such a stubborn teenager, I know I'm a pain, but you mean the world to me and I appreciate everything you do. Dad- You've been my rock whenever I needed you and you always give the best advice. Rach- You're my best friend and I know we will only get closer. I know I can always count on you to be there for me. Bribri- I wish everyone was as goofy and happy as you are; you can always make me laugh. Keep smiling. Shannon- It took us long enough, but you easily became one of my best friends. I know you'll never judge me, but I can count on you to give me the truth when I need to hear it. Haha who knew we had so much in common. Katie- You literally changed my life. You made me so much more outgoing, and you made me realize I don't need to care what anyone else thinks. You're crazy, but I know you've got my back no matter what, and I hope you know I've got yours. Ash- You are my person. I could literally write pages about you, I love you so much, but you've already heard it all. You're crazy, but hey, we're all mad here... No one ever could have guessed we'd be like sisters, haha we're polar opposites. But we always will be, just 2+2 will always be 4 <3 Best of luck to all the underclassmen I've gotten close to, love you guys! And Mr. Nottingham and my Ecuador group, haha, you are all like my second family. I will treasure that trip forever.

Nana, you've always been the guiding and reassuring presence in my life and without you I'd be so lost today. I love you so much. To all of my teachers and coaches over the years, thank you for all of the advice and encouragement, I wouldn't have made it without you! When people tell you that your four years of high school happen in a blink of an eye, they really mean it. High school was full of plenty of ups and downs and I wanted to thank my family and friends for sticking with me through it all. Mom and Dad, someday there will be a time when I truly realize that I was blessed into the most remarkable family that there is. I cannot thank you guys enough for the thousands of miles and hundreds of hours that you have spent driving me across the country to pursue my dreams. You guys have sacrificed everything for me and I thank you for that. You guys have taught me life lessons that I will hold onto for the rest of my life. To Chris, we've been through thick and thin together, and that's why we're brothers. I will never forget the great moments and laughs that we've had together. There are three groups I need to thank for my time at NHS. First among them; my parents. Thank you for always getting me to become independent and do my own work in my own way, yet being around to guide me in my pursuits. I would not be where I am without the both of you, your profundity and insight is worth more to me than you know. Next comes my siblings. While we do not always agree on every point, Trevor, you have become an integral part of who I am today. Megan, I value your advice and friendship more than anything, and hope you are closer to me than you have been these past few years (geographically, of course), because we couldn't be closer. Finally come my friends, the family I chose. From "The Barn" to "The Junior Gents" my friends have always been at the center of my decisions, for better or worse. Here's to (in order of appearance) Willie, Nick, Sam R., Shannon, Mike, Rebecca, Tommy, Greg, Sam C., Labadie, and of course, Fletch. And needless to say, Jim Whelton, keep doing you sir.

Going through High School was an exciting journey that has come to an end. College and Careers are just around the corner. I couldn't have made it this far without the help of my mom and dad and the rest of my family. My grades would certainly be worse without their constant motivation. My mom helped me with stuff around the house so I could focus on school. My dad taught me how to play just about every sport. My grandparents played a role in my success with their support and good examples. I would also like to thank most of my teachers. The help you offered in class was very beneficial to my success. Thanks to my coaches for having trust in me. It has been a fun ride these last couple of years and it will continue.

I can't believe my time at NHS is coming to an end, but I couldn't have asked for a more amazing experience and there are so many wonderful people I'd like to thank. My Mum and Dad for raising me to be who I am today, I know you guys will always have my back no matter what and I am so grateful for that. Tristan for paving such a creative path for me to follow and Sophie for never judging my singing to the radio on our morning commute to school. Han- for always being my homegirl. To Georgia, Hallie and Gretchen. I can't describe how much our friendship has meant to me after all this time and I can't wait to see that friendship grow even more bangin as we get older. Cam- for bein my main man after all these years and always making me smile, you're the best. Thank you to my teachers and peers who have prepared and inspired me to do great things. High school has been a great experience. My family has always supported me every day and I could never thank them enough for all of the countless things they have done for me. I shared the best times of high school with my awesome group of friends. Together we shared the laughs, the stresses, and some crazy experiences that high school brings. My best friend and girlfriend was always there finding new ways to make me laugh. What I will miss most is being able to see everyone one of my friends and family every day. I hope to keep in touch with them after graduation.

As graduation gets closer, my 18 year old self cannot wait to go out into the big world. But my younger self still wants to stay where I am comfortable. All I have to say is... damn, these past 4 years feel like they went by in just a matter of weeks. I never completely understood what the graduating students meant every year when they said their high school years flew by until now. Every teacher whose class I've had the blessing of being in has been amazing; I can't thank you all enough for all that you've taught me. I believe that life is partly what you make it, and partly what is given to you, and I'd like to thank my parents for giving me the courage, support, and opportunities I need in order to continually push myself. Marissa and Jessica, we've had good times and some bad times, and it's going to be so different without the two of you there next year. I know we've fought a lot, but you guys are pretty great people to have for younger sisters and I wouldn't trade either of you for anything. Thank you to all my friends for the great times and crazy adventures we've had growing from dorky kids to young adults; I'm going to miss you all so much. Lastly, I want to congratulate my entire graduating class; we've actually made it! Somehow I thought we were all going to be a lot bigger by the time we reached senior year, and it seems like we're all still so little. And because of that, it's almost scary to think that soon we're going to be saying goodbye to each other for the last time. It's a bittersweet ending that we all knew was coming, but never really expected to arrive. I hope everyone has a great future, and becomes the person that they've always dreamed of becoming. Thanks. First of all I would like to thank my parents for helping me to become the person I am today and helping me though my childhood. I also want to thank my sister Amanda, for always giving me great advice for school and life in general. Thanks to my friends for all the good times over the years. Lastly, I'd like to thank all the teachers that prepared me for college so well. Good Luck to the class of 2014!

How do I thank a lifetime of amazing people? To my wonderful parents, Mumsy and Daddy- You guys are my heroes, thanks for always letting me be your baby girl even at 18. I love you more. Matty Guy- Thanks for always being a great role model. You really are my best friend, no matter how far apart we are, I love you so much. My partner in crime, Meggy- There are no words to describe our friendship. You have been by my side through everything, you are my sister and I love you so much. Kill it senior year. To the Hollands- You guys are more of a family to me than most of my relatives. Thank you for always making your house a second home to me. Katie- You have shown me what a true friend really is. I cannot begin to show how thankful I am to have you as my best friend. Wherever we end up, you'll be my friend forever. My dance girls- Thanks for making the past 15 years unbelievable. I can truly say I found a family with all of you. To my beautiful friends- From the Old People Lane to Barcomb's basement, you guys have made my life full of laughter. Thank you for always putting up with me. Class of 2014, we finally made it. Good luck. I love you all. Now in the wise words of Miss Elle Woods, Class of 2014... WE DID IT!

I don't know how this tiny column will suffice as a "thank-you" to everybody that has helped me, but I'll try. Of course, my parents are on the top of the list. Dad, you always ask "what can I do to help?" and just by asking that you get me through whatever it is that I'm struggling with. Mom, without you I wouldn't be able to function, you literally do everything and I don't think I've ever heard a complaint come out of your mouth whenever I make a mess or break something, and you always find a way to make me smile. Nathan, there have been countless times where I have asked you for homework help and you always help me. Your sarcasm, although cruel sometimes, cracks me up and dinner isn't the same without you. Nikki, I saved one of the best for last! Although I never used to admit it, you're just like me, but a thousand times crazier and I love that. I'm always in a great mood when I'm around you and you know when I need your craziness and when I need to talk. Lastly, I want to thank all my amazing friends, freshmen, sophomores and seniors included, for smiling at me in the hallways and just being there. To my best friends, you know who you are, I will always be grateful for you standing by my side through everything. I love you all!

Safe to say that these past four years have gone by faster than I could have ever imagined. I would obviously like to thank my wonderful parents first. Mom & Dad, you guys have made me into who I am today. I thank you for not only being great parents to me but also for being another one of my friends. To Dan, Jon, and Shmay, words cannot describe how happy I am to call you guys my brothers. Having three brothers is a gift, it's not something that many people get to say they have and I can't wait to grow up and see what you make of your lives. Ms. Field, thank you so much for all your help in the past four years. To the psychopaths I call my friends, I am sad that we are all going our separate ways now but you guys have made high school the most memorable experience. I hope to call you my friends for a long time. I would also like to thank the Eating Establishment for getting me through some hard times and that you will be what I'll miss most about Norwell. And finally to the Class of 2014, best wishes to all of you and I hope to see big things out of you guys... Finna go to college now doe.

I think the toughest thing about high school was figuring out who I am and who my real friends are. It's been a real journey, from laughing, to crying, from hating each other, to loving each other, from the drama, to the good times, but my friends have stuck through it all with me and I can't thank them enough for that. Also, I want to thank my family, not just my parents and brother, but my whole family for loving me no matter what, for kicking my ass when I needed it, and for encouraging me to go after my dreams. It's been a great four years, and I'm ready to start this new chapter in my life.

It's been a crazy four years, NHS. First of all, I want to thank my family: Mom, Dad, Joe, and Tim for supporting me and believing in me no matter what. To all my former teachers, thanks for being truly awesome and inspiring people. And to the girls who invited that awkward new kid to their lunch table in 7th grade, I owe you one. I love you guys and can't imagine not seeing your beautiful faces every day next year. We've laughed together, cried together, and stressed out together; and I'm going to miss you all more than I can say. There have been so many memories at this school, and so many people to thank for them. First, thank you, Mom, for listening to me complain when I really had nothing to complain about, and for getting me everywhere I needed to be. Daddy, thank you for your enthusiasm and encouragement for everything I love, and for always expecting the most of me. Mr. O'Brian, thank you for always being honest, and for showing me not only how to be a good musician, but a better person. I'd also like to thank the robotics team, you guys are like a second family for those six weeks of build season; and everyone involved in any band, it was great making music with you. Last but not least, I would like to thank my friends. You guys have been so amazing, whether it at Kyle's awesome parties, or sitting in the band room crying. I don't know what I would do without you, and you all mean so much to me. Emily, thank you for the musical times we've had, band camp or BaYS, your encouragement has helped a ton. I would like to thank all my teachers for helping me and expanding my knowledge over the last four years. I would also like to thank my family who's supported me throughout school and has been there for me. I would like to give a shout out to all my friends who have made countless memories for me from high school that I will remember always. I don't think I'll miss a lot from NHS but I know for sure next year I'll miss having chicken patties 4 out of the 5 days a week. So live it up underclassmen, eat all those undercooked, leftover pieces of meat you can cause you'll miss it when you're gone. Finally I want to say good luck to the class of 2014. Mom and Dad, you both have helped me choose the paths that I have taken throughout my life thus far, helping me to choose right from wrong. You have pushed me to reach my full potential and shown me the person that I want to be. Thank you for always having the faith that I would make the right decisions. Joe, you have always led by example, showing me what I wanted to amount to. But more importantly you've always been there when I needed you, not only as my brother, but as my friend. Steph, I cannot believe that you're entering the high school as I'm leaving it, I'm sure you'll do great! Just remember that I'm always just a phone call away. Nicole, you might be 9 years younger than me but you bring joy and laughter to everyday. You all have made me who I am, without you I simply would not be me. Kayla, we have been friends for nearly our whole lives, we might fight but you know I love you. Caroline, we haven't been friends for that long but I feel like I've known you my whole life, thanks for keeping me level headed and telling me when I'm out of line, but also being up for my crazy adventures. Go to college and kill it, but don't kill it too hard without me by your side. Megan- Best friend or sister? You live in my front yard, I don't think it gets any closer than that. My parents have been there through thick and thin and have always supported me in what I do while giving me some great advice on the way. Anytime I felt like giving up they were there to get my right back on track. Love you guys. Also, I could not have had a better group of friends throughout high school. I could always count on them to have my back and give me some great laughs along the way. I couldn't of done it without you boys. I honestly can't believe that it is our turn to graduate. This year we are the ones to be leaving NHS. It is ridiculous how fast but fun these four years were. High school would not have been the same without my family, friends and teachers. My parents helped mold me into who I am and provided me with all the tools and opportunities that will lead me to a successful future. To my brothers James and Ronan, you have made every moment of my life absolutely hilarious and I can easily say there has never been a dull moment. James, you're so motivated to do great things. Everyone knows you are going great places in life and I wish you luck in the remaining two years of high school. Ronan, my baby brother, the one who is always there to hug me and who runs errands with me like my little assistant, you have so much ahead of you. NHS needs to beware that you're coming in six years, you're definitely going to cause some trouble there. I am sure going to miss all my girls at the lockers every morning. We have had some seriously great times together and I don't want to think of leaving it behind. And of course, to my teachers, I can not thank all of you enough. There is no doubt in my mind that I am perfectly prepared for college academics thanks to you. I am so lucky to have grown up in this town and very thankful for the education, experiences and opportunities it has provided me.

To my parents: Thank you for being so supportive and loving. No one has sacrificed more for me than you have. I am grateful everyday for all of the things you have done for me and I am proud to be your daughter. To my grandparents: Thank you for being my biggest fans. I will always appreciate the faith you put in me to succeed. To my friends: Thanks for just being you, I don't know where I would be without you guys. Even though we're growing up, I know we'll always be there for each other. And to all of my friends that aren't graduating yet; you are the reason that I am okay with leaving, because I know, that no matter how far I go, I will always have something worth coming home for. In ten years from now I'm not going to remember the long nights I spent memorizing history facts, or all the math quizzes I failed, I'm going to remember the good times I had with my friends, and all the amazing (sometimes stupid) things we did together. It is these memories that I will carry with me throughout college, and on into the rest of my life. and help each other; yes, a loving place:
At home is where my life, a flower, blossoms.
Then too the sea filled with familiar faces
with whom I laugh and learn five days a week;
our friendships forged in unfamiliar places,
thus we have found the love that we all seek.
These bonds shall never ever hence be broken,
through time and space our friendships shall
endure,*

*And all the words yet to be writ or spoken
we all now see within our hearts so pure.*

Thank you all my family, all my friends, all of NHS, and especially my mom and dad for making me the best person I can possibly be! :)

I have spent a lot of time thinking about what to write. I thought about all the people I know, and all the places I've been over the past few years. I am so grateful to have grown up in such a warm and supportive community. My biggest thank you goes to my family. Mom and Dad, thank you for always encouraging me to do my best and for all of your advice you have given me. Max, you still have a ways to go, but the best is yet to come, enjoy every minute of it. To all my teachers at NHS, thank you so much for your wisdom and the time that you put into making me the person I am today. Also, I want to thank all of my friends for the adventures, and good times that made each year better than the last. I could not have done it without you. Em and Sar, seeing your faces every morning in homeroom made my day so much brighter. Jacqui and Katie, never a dull moment, always an adventure. Most importantly, I want to thank my family for being the most wonderful people I know. Mom and Dad, from the beginning, you guys have taught me how to always be positive, and whatever it may be, it will pass. Without you two, I wouldn't have the drive to have gotten where I am now. Heather, you are one of the strongest people I know and you will always be my role model. Curtis, no one makes me laugh as much as you do, thank you for always being there for me kid. I love you guys more than anything. And finally, thank you to every one of my friends; it's been a great 17 years. We have had so many good times, I will miss you all so much next year. These past few years have both flown by and dragged on unlike any before them, and I honestly don't know how I would have survived without the love and support from the people in my life. Mom, Dad, you guys mean everything to me and no matter how old I am or how far away I live I'll always be your Jessie-woo-hoo. Ruth, I never did believe that a worst enemy could become a best friend... Well look at us now, practically twins and I love you more than words can describe. Eliza, I love you to the moon and back. You're always there to lift me up when I'm down, and both you and Ruth never fail to make me laugh. Riley, your constant energy is contagious and your the best little brother a girl could ask for. To my friends, thank you for being so awesome and making me smile. I don't know how I would have made it through without you guys. Thank you especially to Mr. Nottingham and Mrs. Greenberg for helping me discover something that I will love and cherish forever. Swim team and Mrs. Fox, you are the absolute best team in the school. Good luck in the years to come. Pete, I will never forget the love and support you gave me both in the gym and out. You truly are an amazing person. Congrats to the class of 2014! Dear Emily-!

It's hard to believe that your time at Norwell High School has ended! Let us be the first to congratulate you on a job well done! Your dedication to hard work, your perseverance and your joy of learning has taken you far and we couldn't be any prouder of you! It has been a joy watching you grow over the years. It seems like it was just yesterday when you were in Mrs. McCann's first grade class and your biggest complaint was that there wasn't a single toy to be found in her classroom! Imagine that? You have grown into a beautiful young woman both on the inside and out. You have so many exciting and endless opportunities ahead of you! We're so happy that you have decided to pursue a path in Nursing. You are such a kind, caring, happy and positive person that you will be a comfort to your patients and you'll make a difference in their lives. Embrace this new and exciting chapter in your life. As you move forward remember to work hard, take time to savor the big moments in your life, don't sweat the small stuff, be kind, reach out to those in need and take time to laugh! And as we used to tell you when you were little "reach for the sky cutie-pie"there's no limit to what you can achieve! Love Mom, Dad, Molly & Sailor

Well Mr. Matt, you have reached another of life's milestones, and in the next few years, you will be faced with choices that will define who you are, and who you will become. The right choice won't always be the easy or expedient choice, and more often than not, the choice that will yield the best long term outcome, will come with the highest short term price - so choose wisely.
In the final analysis, it won't be how much you make, or the material possessions you accumulate that will determine your quality of life and ultimate happiness, but rather the freedom you have to do what you want, when you want. Education - what you know - and what you can do, will have the greatest impact on the freedom you have to live your life, as you see fit - so don't ever stop learning. Always remember that it does not cost anything to be nice. A smile will sometimes get you places no amount of money, or words spoken in anger can. People will always be more inclined to kindness towards you, if you exhibit kindness toward others. Treat others, especially those less fortunate or capable, as you would like to be treated, but when someone tries to get the better of you, outsmart them, out work them, and have the last laugh. Try to do the right thing, and enjoy life. Mom, Collee and I, will always be there for you, and love you very much

...to Norwell When you were so little. Anne Higgins (preK), Kindercare and friends kept you busy and happy. There was soccer at Osborn field and spaghetti parties with Tommy and Alana and Nicky. Then wonderful years at Cole -fantastic teachers, Nurse Jackson, sledding at First Parish, hours at Gaffield Park, quiet ball, and even a sleep over in the gym. Wonderful friends - Kyle, Kevin, Victor, Luke, Grant and Mike - always up for sprinklers and make-your-own sundaes. Finding treasures and adventures in books at NPL with Miss Nancy.

Learning to play the sax with dedicated music teachers. Then NMS - and dances, trips, countless sports games, and even more fantastic teachers and more wonderful friends. Movie nights and games and pizza parties with Liam, Andrew, Joe, Sam, Willie, Jeff, Katie, Lauren, Claudia, Danielle, Tommy, Aaron, Liza and Emily. Through all the years you had such amazing coaches. Before we knew it you were at NHS. Surrounded by superb teachers you and your friends challenged yourselves and learned so much more than we could ever dream of teaching you. And then you were sick and our world collapsed but we were also fortunate, as we found we were surrounded by an amazing community. A town with neighbors like Barbara, who organized a food train - thank you everyone who cooked for us.

You were determined to keep up with your class and Mr. fish and Mrs. Prescott guided you through the difficulties of home study. Your fantastic teachers and tutors went above and beyond to help you. We are so grateful to all. We will never forget Mr. O'Briant and the band members braving the freezing cold and hail to play Happy Birthday to you from outside the window when you at home in isolation. You got countless letters from elementary school kids, First Parish and UCC, and from your friends and their parents. It was so powerful to see so many people wearing "I support Nick" bracelets, and even more so to hear that so much was donated to the Leukemia Foundation. We also thank everyone who helped us try to keep your brother's lives "normal" and gave them rides to all their sports and music lessons and now all the seniors move on to the next phase of their lives. We wish you all the best and hope you all will always feel the support of our wonderful community.

Congratulations to the Class of 2014!

The function of education is to teach one to think intensively and to think critically. Intelligence plus character - that is the goal of true education.
